Organized Summary of Your Conversations

Here is a structured summary of your recent conversations:

1. Dependency Conflicts
- You encountered conflicts with langchain-core and langchain versions.
- We discussed how to resolve Python dependency issues.

2. Google Sheets Automation
- You asked how to delete multiple spreadsheets programmatically.

3. Zapier Platform Ideas
- You wanted non■sensitive app ideas for building a Zap.
- You also asked where to find RSS feed URLs.

4. AWS Bedrock Regions
- We covered why most AI models are available in us-east-1.

5. Ratio/Comparison Explanation
- You clarified whether "A is 3x more than B" means "B is 3x lesser".

6. HuggingFace Datasets
- You asked for datasets suitable for training Stable Diffusion 3.5.

7. Building an AI Workflow Automation Platform
- You asked how to build your own Zapier-like platform.
- Then you requested an optimized prompt.
- Later, you asked to shorten a large Angular frontend spec.

8. Current Request
- You asked for an organized summary of your conversation in PDF form.

This PDF contains that structured summary.
